Why choose Hisco as your aerospace solutions provider?

Warehouse Proximity

Hisco maintains North America's largest network of AS9120 certified locations, as well as the largest footprint of any North American distributor. We can ship aerospace products fast to keep your lines up.

Supply Chain Savings

Hisco is an authorized distributor of key industry suppliers including Henkel, 3M, AkzoNobel, Solvay and hundreds more. Our supply chain system is designed to increase efficiency and maximize your savings.

Quality Compliance

With North America's largest network of AS9120 locations, our associates receive continuous training and education surrounding current policies and regulations to ensure constant quality compliance.

Aero Colors

Our unique Aero Colors business delivers next-day, custom-tinted AkzoNobel paint and coatings directly to you, at a fraction of the cost.

Converting and Repackaging Operations

Streamline production with cost-effective, custom fabricated converting solutions and repackaging solutions for adhesives, chemicals and more.

VMI

Streamline, optimize and save up to 30% with Hisco Vendor Managed Inventory solutions.

DCS

Since 2002 we've helped customers like you achieve more than \$150 million in cost avoidances through process, design and supply chain improvements.

Chemical Management

Team up with Hisco to vend chemicals, flammables and temperature-sensitive products including solder paste, IPAs, hazmat materials and more.

ESOP

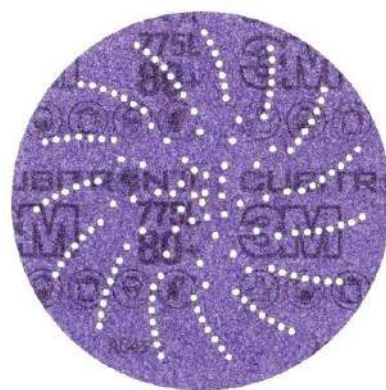

Hisco is 100% employee-owned and has proudly operated as an ESOP company for nearly 45 years. Because we all have a stake in the company, each of us has a vested interest in our overall success and customer satisfaction.

3M™ Cubitron™ II Hookit™ Film Discs and Stickit™ Film Disc Rolls 775L

Cut faster with the abrasive that lasts longer. 3M Cubitron Hookit Film Discs 775L and Stickit Film Disc Rolls 775L feature advanced abrasive technology for self-sharpening, even wear, extra-long life and better consistency with minimal rework. Faster sanding and more parts per disc translate to increased throughput; a longer disc life with fewer disc changes means lower costs.

3M Hookit Blue Abrasives

Engineered for maximum abrasive performance, 3M Hookit Blue Abrasives feature an engineered, ceramic mineral-blend grit designed for use during every stage of paint preparation and body repair work. Multi-hole construction reduces loading, captures dust and extends abrasive life, while the Hookit attachment system simplifies changeovers. Discs are packaged 50 per carton. Sheet rolls are 2 ¾" x 13 yards and are packaged 4 rolls per case.

3M Hookit Soft Interface Pad

Constructed of soft foam and designed to contour for a fine finish, the 3M Hookit Soft Interface Pad offers support for an optimal abrasive cut and improved edge sanding. Engineered to minimize work surface dust and extend disc life, the Hookit Soft Interface Pad reduces orbital sanding tool vibration and improves overall results. Applied between Hookit discs and back-up pads for faster changeouts.

Packaged in cases of 10.

Part #	Diameter	RPM	Holes	Unit of Measure	Price
7000000490-31180	3"	15000	6	Case	\$63.10

3M Hookit Low-Profile Disc Pad

Designed to improve balance while reducing vibration, 3M Hookit Low-Profile Disc Pads facilitate use of 3M Hookit discs via any disc sander, rotary sander or random orbital sander. Intrinsic Hookit hook & loop attachment system ensures easy disc changes and extends life of the disc. Clean Sanding options feature 3M's proprietary, multi-hole pattern to dramatically reduce dust on the work surface while increasing efficiency. Firm density options are ideal for stock removal and leveling, while soft beige foam offers better finish and conformance. Max. RPM: 12000. Packaged 10 pads/case.

3M Finesse-it™ Roloc™ Sanding Pad

Designed for quick attachment to 3M Stikit sanding discs on random orbital tools, 3M Finesse-it Roloc Sanding Pads are constructed of medium-density foam with a black rubber face for leveling of paint defects. The Roloc quick-change attachment system ensures fast changeouts during multi-step processes.

Diameter 1 1/4". Sold in cases of 20.

3M Scotch-Brite Roloc AL Surfacing Conditioning Disc

The perfect balance of strength and softness, 3M Scotch-Brite Roloc AL Surface Cleaning Discs easily and efficiently remove burrs and contaminants without damaging base substrates, including ferrous and non-ferrous metals. Designed for medium- to low-pressure applications where loading resistance is desired, the discs feature an open-web construction to minimize gouging and to accommodate for surface contours and irregularities. Aluminum oxide mineral grain provides a sharp cut and fine finish, while the proprietary Roloc system ensures swift power tool attachment. Available in coarse (A C), medium (A M) and very fine (F) grades.

3M Stickit Gold Abrasive Disc Roll 236U

Constructed of premium aluminum oxide on a C wt. paper backing, 3M Stickit Gold Abrasive Disc Roll 236U features a load-resistant coating and is engineered for flexibility and edge durability. Resin-bonded to extend cut and disc life, the 236U series is ideal for use on aluminum, carbon steel, fiberglass, gelcoat, composites, hardwood, softwood and solid surfaces. Applications include AOEM finish prep/repair, blending, finishing, orbital sanding and metal prep prior to paint. Packaged 100 discs per roll; 4 rolls per case.

3M Stikit Disc Pad

Designed to provide well-balanced backup for 3M Stikit Discs via a random orbital or rotary sander, the 3M Stikit Disc Pad transfers the power of the sanding device to the work surface itself. With a 45 degree tapered edge for flexibility, Stikit Disc Pads facilitate easy blending and are ideal for use with medium-grade abrasives. Dust-free options ensure a cleaner workspace and finer finishing results. Attachment interfaces suitable for use with many common power tools.

Medium density with a 3/4" thickness and 10000 maximum RPM.

Sold in quantities of 10 pads/case.

3M Elite Non-Vacuum Random Orbital Sander

Better than ever, 3M Elite Series Random Orbital Sanders are durable and built to last, engineered for maximum comfort and efficiency. Only the Elite Series features integral wrist support, central-mount exhaust and a wider port to optimize dust capture. The Elite's proprietary thumb wheel offers mounted speed control while a recessed lever eliminates pinch points. 3M Gripping Material reduces overall vibration. *Max. RPM: 12000.*

3M Utility Cloth Sheet 011K

With its aluminum-oxide abrasive and flexible backing, the 3M Utility Cloth Sheet 011K offers durability and a consistent finish during wood or soft metal hand-polishing, deburring, finishing and surface preparation applications. Lightweight and pliable, it is easily rolled, folded or torn by hand to conveniently resize and reduce overall waste. This multi-purpose sheet is available in coarse, medium and fine grades and features a closed coating to maximize surface cut.

Each sheet is 9" x 11" and packaged 50 sheets per carton, 250 per case.

Part #	Grade	Price
7000118251-31180	Fine	\$1.39/SH
7000118252-31180	Medium	\$1.45/SH

Dynatron

3M Dynatron Reinforced Fillers

Significantly stronger than typical fillers, Dynatron Reinforced Fillers are ideal for rust hole and fiberglass repair. Each formula features short, long or milled fiberglass strand reinforcement. Waterproof and flexible for use with a range of repair applications. Single gallon, packaged 4/case.

Part #	Description	Strands	Price
7000125052-31180	Ultra-Glass™ Reinforced Filler	Milled	\$59.16/CN
7000125049-31180	Dyna-Glass™ Reinforced Filler	Short	\$56.92/CN
7000125051-31180	Dyna-Hair™ Reinforced Filler	Long	\$58.22/CN

3M Platinum™ Plus Filler

Engineered for excellent adhesion to a range of substrates, 3M Platinum Plus Filler features advanced chemistry ideally used with galvanized steel and aluminum. With a creamy formula for fast, easy application, filler is vacuum-processed and pinhole-free to optimize quality and purity.

Part #	Size	Packaging	Price
00051131058637-31196	276mL Cartridge	6/Case	\$122.52/CS
7000001498-31180	1 Gallon	4/Case	\$51.73/CS

3M Dynatron Hardeners

Specifically engineered for use with 3M Dynatron and Bondo™ brand fillers, resins and putties, 3M Dynatron Cream Hardeners are made of the highest-quality raw materials available to create long-lasting repairs. 3M Dynatron Liquid Hardener is engineered for use with Dynatron polyester fiberglass resin products to deliver a fast cure and 100% waterproof repair. All products packaged 12/case.

Part #	Size	Description	Price
00051131058309-31196	2.75oz	Red Cream Hardener	\$4.92/EA
7010378353-31180	2.75oz	White Cream Hardener	\$3.53/EA

Why choose Hisco as your aerospace solutions provider?

We know when a plane's AOG every minute counts. That's why we're a full stocking aerospace products supplier with local inventory of the mission-critical products you use every day. We have locations throughout the US, Mexico and Canada to seamlessly support all your facilities, complete with aerospace certifications and more AS9120 locations than any other North American distributor. And our technically-trained sales and customer service teams deliver our signature "fast, friendly service" each and every day.

3M Dynatron Cranker™ Mechanical Filler Dispenser

Ruggedly designed and mess-free, Dynatron Cranker Mechanical Filler Dispenser allows dispensing of 3- and 5-gallon containers at a controlled rate.

Part #	Price
7000125084-31180	\$159.71/EA

Dynatron®

3M Dynatron Dispenser Kit

Designed for use with 3- and 5-gallon filler containers, the Dynatron Dispensa-Mat Air Dispenser is an air-powered system that works in conjunction with a built-in piston to force the filler through a bottom dispensing valve. Must be accompanied by an air regulator.

Part #	Size	Price
7000125081-31180	5-Gallon Kit	\$278.18/EA

3M Dynamic Mixing System Applicator

Designed to complement the 3M Dynamic Mixing System, the 3M Dynamic Mixing System Applicator features an increased dispense rate compatible with a range of products. With a trigger control to deliver precision application, this durable applicator ensures quicker repairs and decreases cycle time.

Part #	Description	Packaging	Price
7100077827-31180	Pneumatic Applicator	1/Case	\$653.58/EA
7000119826-31180	Mixing Nozzle	50/Carton	\$89.38/EA

3M Warm Weather Dent Filling Compound

Developed specifically for use with the 3M Dynamic Mixing System (DMS), 3M Warm Weather Dent Filling Compound offers an approximate work time of 4-5 minutes at 95°F, and an approximate work time of 9 minutes at 75°F. Stain-free and tack-free compound is extra-creamy for easy application.

Part #	Description	Capacity	Packaging	Price
7000120076-31180	DMS Cartridge	276mL	6/Case	\$23.32/EA

E-Z MIX®

E-Z Mix Spreaders and Mixing Sticks

Constructed of durable, yellow plastic, the E-Z Mix Body Filler/Glaze Spreader features an embossed logo and is available in packs of 50, 100 or a variety pack. Plastic razor blades are also available in bins of 100 for applications too delicate for conventional metal razor blades. Designed for fast mixing of both water- and solvent-based paints, E-Z Mix plastic Paint Mixing Sticks feature a rounded edge and tapered side.

Why choose Hisco as your aerospace distributor?

We know when a plane's AOG every minute counts. Hisco is a full-line stocking distributor with local inventory of mission-critical products with 38 locations throughout the US, Canada and Mexico to seamlessly support all your facilities. Our technically-trained sales and customer care teams deliver our signature "fast, friendly service" each and every day.

3M Scotch-Weld™ EPX™ Applicators

Conveniently portable, 3M Scotch-Weld EPX Applicators are designed to simplify dispensing of 3M Scotch-Weld Duo-Pak Structural Adhesives. The 3M EPX II Applicator is perfect for low-volume applications, while the 3M EPX Manual and Pneumatic Applicators are equipped to tackle larger-volume requirements.

Part #	Size	Price
7100148764-31180	EPX Plus II Applicator	\$80.04/EA
EPX PLNGR-31180	EPX 1:1/2:1 Plunger for EPX Plus II Applicator 48.5mL/50mL, 10/case	\$10.96/EA
00021200879777-31196	EPX Manual Applicator, 200mL	\$568.89/EA
00063806010062-31180	EPX Pneumatic Applicator, 50mL	\$714.12/EA
7000121584-31180	EPX Pneumatic Applicator, 200mL	\$1,308.16/EA

3M Scotch-Weld EPX Mixing Nozzles

With a tapered tip that can be cut for bead size, the 3M Scotch-Weld EPX Mixing Nozzle provides complete mixing and precision placement of dual-component structural adhesives. Engineered to minimize waste, the EPX mixing nozzle is easily replaced to utilize any remaining adhesive in the cartridge.

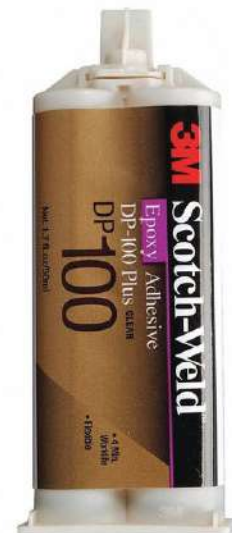

Part #	Description	Price
00051115690433-31196	Square, Orange, 45mL 36/Case	\$1.10/EA

3M Foam Fast 74 Cylinder Spray Adhesive

Engineered for use with foams and fabrics, 3M Foam Fast 74 Cylinder Spray Adhesive offers aggressive industrial-strength tack for fast assembly of high-stress bonds. Non-yellowing formula provides high initial grab with sufficient positioning time. Lace-spray pattern ensures uniform application optimized for permanent foam and fabric bonding to a wide range of substrates. Bonding time: 15 seconds – 30 minutes depending on application.

Part #	Size	Vessel	Color	Unit/s Case	Description	Price

3M Rubber and Vinyl 80 Spray Adhesive

High-strength and fast setting for strong bonds and rapid results, 3M Rubber and Vinyl 80 Spray Adhesive offers exceptional resistance to heat and plasticizing oils. Specially engineered for use with rubber and vinyl substrates for durability and bond resilience.

Part #	Description	Price
00021200826184-31196	3M Rubber and Vinyl 80 Spray Adhesive	\$30.26/CN

24 Hour AkzoNobel turnaround with Hisco's Custom Paint Subsidiary

Aero Colors delivers tinted aerospace paints and coatings directly to you, in a fraction of the time.

3M Super 77™ Spray Adhesive

Strong and versatile, 3M Super 77 Spray Adhesive is the multipurpose solution essential to demanding applications that involve bonding of lightweight materials. With a quick, aggressive tack and fast set time, this industry-classic adhesive is fully repositionable prior to cure (15 seconds – 30 minutes) and delivers a permanent bond. Photo-safe formula is easily applied and will not yellow. Ideal for use with general maintenance and repair projects, fiberglass installation, and bonding thin films, foils and fabrics.

Henkel BONDERITE Pretreatment Conversion Coatings

Used to create a protective coating for aluminum, magnesium, titanium and alloys, BONDERITE Pretreatment Conversion Coatings help minimize corrosion and improve paint adhesion. Low-and non-VOC options are available, as well as non-flammable coatings in addition to water-based protectors. BONDERITE temporary corrosion protection is innovative, reliable and sustainable to help match even the most stringent environmental regulations.

Part #	Description	Price
BONDERITE M-CR 1000RTU AERO 595643-34910	Aqueous solution used for aluminum and its alloys will not significantly alter surface appearance; offers excellent protection formulated for damage touchups and previously treated areas	Call for Pricing
BONDERITE M-CR 1001 AERO 594417-34910	Non-flammable, chromic, acid-based coating for aluminum and its alloys; best, affordable option for paint adhesion and corrosion resistance	\$37.42/EA
BONDERITE M-CR 1200S AERO 598427-38190	Powdered substance used on aluminum to create a protective coating against corrosion; provides improved bond for paint	\$791.77/EA
BONDERITE M-CR MAGNESIUM AERO	Formulated to treat magnesium alloys; coating conforms to SAE AMS-M-3171, Type VI; application conforms to NAVAIR 01-1A-509	Call for Pricing
BONDERITE M-CR 871 AERO (PEN) 1446363-30769	Trichrome, dry-in-place coating for aluminum and its alloys; pen applicator provides simple repair method for bare surfaces	Call for Pricing
BONDERITE M-NT 8800 AERO	Sol-gel coating replacement engineered to enhance adhesion to aluminum and titanium alloys; provides excellent base for organic finishes and adhesive bonding surface preparation; should not be rinsed following application	Call for Pricing

Henkel BONDERITE Aluminum Chromate Conversion Coatings

Designed to passivate metals using an immersion bath process, BONDERITE chromate conversion coatings for aluminum are applied as a corrosion inhibitor, decorative finish or primer, or are used to maintain electrical conductivity. A simplified coating process delivers the highest standards in corrosion protection and paint adhesion. With both liquid and powder options available, coatings offer enhanced rinsability with no foaming or fumes released during the application process. Additional benefits include automatic feeding, low product consumption, analytical control and less renewal.

Part #	Product	Size	Description	Price
594871-38190	BONDERITE M-CR 1600 AERO	55 Gallon Drum	Concentrated liquid, dual-package	\$4,394.90/EA

3M Surface Pre-Treatment AC-130-2

Designed to effectively eliminate chromates from the surface treatment process, 3M Surface Pre-Treatment AC-130-2 is a surface prep treatment for all metallic substrates to facilitate a stronger bond. Engineered to reduce water usage and labor by at least 35%, AC-130-2 acid paste is engineered to improve adhesive bonding of metal and composite surfaces and is compatible with existing application techniques. Ideal for use with metal bonding, metal-to-composite bonding, sealing, structural bonding and surface preparation applications.

Part #	Size	Price
7000048184-31180	50mL	\$38.06/EA

3M Surface Pre-Treatment AC-131

For use on aluminum, steel and titanium alloy substrates, 3M Surface Pre-Treatment AC-131 is engineered to reduce rivet paint loss, water usage and labor by eliminating scrubbing and rinsing requirements. Water-based and non-chromated, AC-131 coatings improve adhesion between metallic surfaces, and epoxy or polyurethane-based organic coatings. Qualified to multiple specs throughout the aerospace industry, AC-131 is ideal for paint prep, sealing and surface prep applications. Available in blue (BB) or clear (CB) formulas.

Part #	Color	Size	Price
7000048185-31180	BB	100mL	\$31.63/EA
7100114228-31180	BB	1 Pint	\$76.18/EA

Henkel BONDERITE Paint Strippers

With a range of formulas offered, Henkel BONDERITE Paint Strippers effectively remove resistant finishes such as epoxies, epoxy primers, polyurethanes and similar catalyzed paints.

Part #	Description	Price
BONDERITE 5351 AERO	Yellow, viscous formula clings well to vertical and overhead surfaces; helps to retard evaporation; should not be used on materials affected by chlorinated hydrocarbons	Call for Pricing
BONDERITE S-ST 5351 THIN AERO	Amber, diphase liquid used to remove finishes from ferrous and nonferrous surfaces; should not be used on materials affected by chlorinated hydrocarbons	Call for Pricing
BONDERITE S-ST 6776 LO AERO 597105-34910	Environmentally advantaged, low-odor, thixotropic solution; does not contain methylene chloride, chlorinated solvents, phenols, chromates, ammonia or amines	\$115.65/EA
BONDERITE S-ST 6930 AERO	Low-odor, thixotropic, environmentally advantaged formula activated by hydrogen peroxide; complies with NESHAP and meets corrosivity requirements of TT-R 2918A; should not be used on magnesium	Call for Pricing
BONDERITE S-ST 1270-5 AERO	Viscous, white emulsion does not contain hazardous or highly toxic components; effective in selective removal of topcoats	Call for Pricing
BONDERITE S-ST 1270-6 AERO	Viscous, white emulsion does not contain hazardous or highly toxic components; effective in selective removal of topcoats	Call for Pricing
BONDERITE S-ST 6813E AERO	Water-based, viscous pink liquid formulated to remove multiple coats; clings well to overhead surfaces; used on ferrous metals via spray or brush	Call for Pricing

Vantage B&B™ Paint Removers

Formulated for the effective removal of resistant, catalyzed aircraft finishes, Vantage B&B Paint Removers are viscous, low-odor solutions activated with hydrogen peroxide.

B&B 5095, for commercial and military use, meets US Air Force T.O. 1-1-8; Tinker AFB Purchase Description; Boeing D6-17487; and Douglas CSD#1 approvals.

Part #	Description	Price
B&B 3095	General Use	Call for Pricing
B&B 5095 (COMMERCIAL)	Commercial/Military	Call for Pricing

Socomore SPC-909N Gel Paint Stripper

Formulated specifically for aerospace applications, Socomore SPC-909N Gel Paint Stripper is activated with hydrogen peroxide and delivers a cost-effective, environmentally advantaged solution for the removal of coatings from metal surfaces. Gel consistency and blue color aid with coverage. Not recommended for use with magnesium surfaces.

Part #	Description	Price

Henkel BONDERITE C-AK 5948DPM

Engineered for use with all jet aircraft, Henkel BONDERTIE C-AK 5948DPM metal pretreatments effectively clean painted and unpainted aircraft exterior and interior surfaces.

- For use on all aircraft metals and well-bonded paint
- Does not stain or streak aluminum
- Readily soluble and stable in water mixtures
- Free rinsing
- Ideal for parts cleaning
- Pleasant and refreshing odor
- Non-flammable
- Does not contain phosphates, chromates or butyl cellosolve

Part #	Description	Common Applications	Price
BONDERITE 5948DPM AERO 597029-30769	Alkaline, water-based, blue concentrated compound formula	Immersion tanks for dip applications	Call for Pricing
BONDERITE 5948 DPM THK AERO 596976-30769 55 Gallon Drum	Environmentally advantaged, thixotropic, water-based, heavy-duty formula	Baggage bins, flap and wheel wells, engines before overhaul	\$973.23/EA

Henkel BONDERITE C-AK AIR TEC 23™ Aero

Transparent, straw-colored BONDERITE C-AK AIR TEC 23 pretreatment cleaner is an alkaline concentrate engineered to clean painted or unpainted exterior surfaces. Applied by spray or foaming method. Meets requirements of MIL-C-87936A, Type L.

Part #	Description	Price
BONDERITE C-AK AIR TEC 23 AERO	Depaint Cleaner	Call for Pricing

Henkel BONDERITE C-IC METAL GLO Brighteners

Henkel BONDERITE C-IC METALGLO Brighteners are non-flammable cleaner/ brightener/ deoxidizer/pre-paint conditioners for aluminum engineered to produce a chemically clean surface free of water breaks and streaking.

- Contains viscosity builders to allow for added contact time
- Removes corrosion products from horizontal and vertical surfaces
- Applied as spray or brush

Part #	Size	Form	Price
BONDERITE C-IC METALGLO6 AERO	Triacid, detergent, solvent-based solution removes oxides and corrosion for a clean, streak-free surface.	Ready to use	Call for Pricing

BONDERITE C-IC METALGLO FF	Non-fluoride, acid-based solution allows for added contact time to remove corrosion from horizontal/vertical surfaces.	Concentrated	Call for Pricing

Get back in the air with next-day AkzoNobel aerospace paint from Aero Colors

Why choose Aero Colors?

Nearly 25 years of experience in the aircraft coatings business

We ship nationwide by all forms of shipment

Over 750 products shipped on a next-day basis

Quick turnaround on AkzoNobel and Sea-to-Sky

No required minimums

Compliant paperwork free-of-charge

OEM Approved Systems for MRO repainting

Aerospace Coatings

Leadership in MRO Coatings

The exterior of a commercial aircraft is an opportunity to showcase innovative livery designs and inspire feelings of confidence and safety in passengers.

In collaboration with our OEM partners, we invest heavily in developing new, state-of-the-art coatings that are trusted by our worldwide customers.

Together with OEMs, we develop coatings that will further speed up the application process, reduce steps, improve paint appearance, and keep aircraft flight ready. AkzoNobel coatings make it easy to get the desired look, eliminating costly re-work and repairs. By using the preferred AkzoNobel coating systems, you can be assured of using the latest technology fully compliant with the major OEM repair and maintenance manuals.

The following overviews show our recommended exterior coating systems for MRO repainting that are listed in the OEM manuals. These officially approved systems highlight our strong position in the MRO industry and our extensive product offer.

AkzoNobel Interior Finishes

Ensure a flawless interior with AkzoNobel Interior Finishes, designed to seal, prime and perfect aircraft cabins.

	Part #	OEM/Specifier	Spec Qualified	Price
Sealants	Aerofine Opti-Dur 8000 Zero-VOC, single-component ultraviolet-reactive coating designed to seal/prime all types of interior solid wood/veneer. Optimal filling properties with resistance to scratches, dry heat and fluids. Suited to roller coating application methods.	AkzoNobel	Certification	Call for Pricing
Topcoats	Aerofine 8250 Single-component, low-VOC waterborne interior topcoat engineered for minimal process times and reduced cycle cost. Complies with current and proposed VOC legislation. Fast drying times with good hiding power. Optimal mar and stain resistance. Wide range of colors available. Isocyanate-free.	AkzoNobel	Certification	Call for Pricing
	Intura 8001 Flexible, single-component, low-VOC interior topcoat designed for water, solvent and stain resistance on interior decorative surfaces. Wide temperature and humidity application range. No pot-life considerations. Isocyanate-free.	AkzoNobel	Certification	Call for Pricing

3M PPS™ 2.0 Adapters

Designed to convert nearly any spray gun to work with 3M PPS Series 2.0, these next-generation adapters offer a four-point lid-to-spray-gun connection, with a wide 360° platform for added reliability. Constructed of stainless steel, 3M PPS 2.0 Adapters are durable and easy to clean, with exceptional solvent resistance. Featuring an all-in-one disposable cup design, 3M PPS 2.0 Adapters reduce the chance of outside consumption by up to 70% for improved quality, diminished paint consumption and consistent material transfer. Units packaged 4/case.

Disposable Cup/Lid Assortment

Includes parts (1ea.) 70002, 70003, 70004, 70016, 70032, 70064, 70086, 70165, 70032-F, 71000, 71020, 76000, 78000, 10009, 51004, 81000, 79000

E-Z Mix Color Match Cards

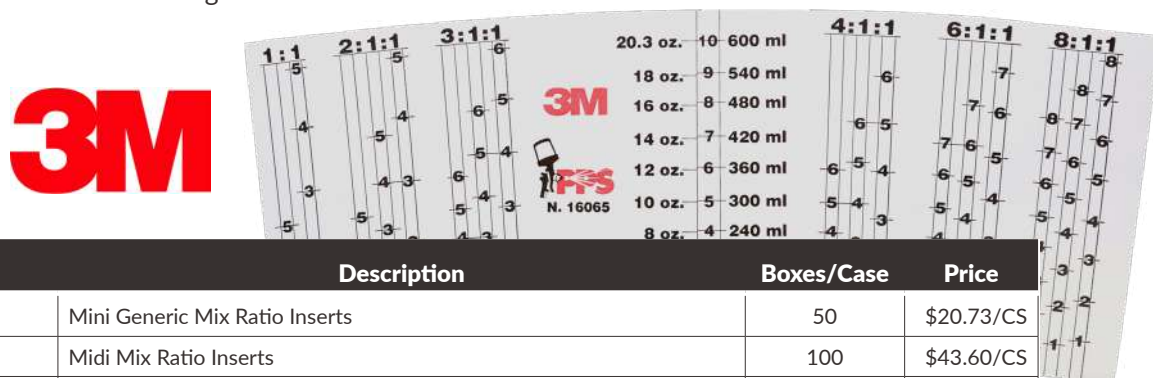

Designed to work well with both waterborne- and solvent-based paints, E-Z Mix Color Match Cards and Colormate Spray Out Cards help to simplify the paint match process. Simply spray the card with base and clear coat, allowing to dry, then apply to the metal surface. Colormate Magnetic Spray Out Cards will adhere to the contour of the metal, allowing color to be verified at a range of distances and angles.

Part #	Description	Quantity	Price

3M Dirt Trap Protection Materials

A revolutionary material designed for durability in high-traffic areas, 3M Dirt Trap Protection Material is specifically engineered to offer surface protection for paint booth shop walls and floors. Designed to withstand bake cycles of up to 180°F, this unique, nonwoven material is constructed to trap airborne contaminants, thereby minimizing dust and overspray. An adhesive backing ensures the material stays in place and is easily removed.

Experienced engineers, unexpected solutions.

Accuracy, experience, innovation and technical leadership – expect all this and more when you work with Precision Converting, a 3M Preferred Converter and a division of Hisco. We'll work with you to custom-engineer a solution designed to streamline manufacturing processes using the best products, at the best price.

3M White Masking Paper

Flexible and durable with tightly bonded construction, 3M White Masking Paper is virtually lint-free and is specially treated to resist solvent, urethane, base and clear coat bleedthrough. Heat resistant at temperatures up to 400°F for as long as 30 minutes, this thin, conformable paper boosts efficiency for a range of masking applications.

Part #	Size	Price
7010362629-31180	60" x 750ft.	\$159.41/RL

7000029607-31180	18" x 750ft.	\$48.10/RL

3M Scotch™ Steel Gray Masking Paper

The ideal paint masking solution, 3M Scotch Steel Gray Masking Paper is specially treated to resist bleedthrough of solvents, lacquers and enamels, and is heat-resistant up to 400°F for one hour. With its thin construction for efficient operation in apron tapers and maskers, 3M Scotch Steel Gray Masking Paper is pliable enough to adhere to irregular surfaces for improved productivity.

3M 7093 Series Particulate Filters

Engineered for exceptional 99.7% filter efficiency, the 3M 7093 Series Particulate Filter features a plastic encasement designed for use in high-temperature or wet application environments. Channeled airflow offers additional protection, enhanced breathability and extended service life. With a contoured design for additional comfort and enhanced field of vision, the 7093 Series features a spring-loaded cover design to simplify negative pressure user seal checks. Meets NIOSH P100-series test criteria. All 7093 Series filters can be attached to any 3M respirator with a bayonet connection, or to the 3M Half Facepiece Disposable 5000 Series Respirator or 6000 Series Cartridges using the 3M 501 Filter Retainer.

3M Perfect-It™ 1-Step Finishing System

Achieve a better finish – without compounding – with the 3M Perfect-It 1-Step Finishing System, engineered to ensure deeper, glossier finishes with less rework and comebacks. Reduce compound sling, wool fibers and lint for cleaner jobs and less buffing work to eliminate swirl marks. Designed for ease of use, the 3M Perfect-It 1-Step Finishing System is an essential for novices and experienced technicians alike.

3M Trizact 8000

Featuring a first-of-its-kind abrasive to eliminate compoundings while removing defects like scratches, runs and dents to deliver a deep, glossy finish.

3M Perfect-It 1-Step Finishing Material

Offers the cut of a rubbing compound combined with the fine, glossy finish of polish.

3M Perfect-It 1-Step Foam Finishing Pad

AA hybrid of 3M's white compounding pad and blue polishing pad, engineered to offer a deep, glossy shine.

3M™ Perfect-It™ Paint Finishing Pad Kit

Constructed for use with 3M Perfect-It compounds and polishes, the 3M Perfect-It Paint Finishing Pad Kit is a complete solution for compounding, polishing and finishing applications. Designed to fit all 3" Hookit™ backup pads, the kit includes 4 single-sided 4" pads to offer excellent control and easy access to tight spaces. Included: 1 Foam Compounding Pad; 1 Low Lint Wool Compounding Pad; 1 Foam Polishing Pad; 1 Ultrafine Foam Polishing Pad.

Part #	Description	Price
7100119297-31180	Perfect-It Paint Finishing Pad Kit	\$17.64

3M Perfect-It Compounding and Polishing Pads

From compounding and scratch refinement to denibbing, slow-speed and ultrafine polishing, there's a 3M Perfect-It compounding or polishing pad for every step of the paint finishing process. Pads are color-coded to match their corresponding Perfect-It liquid, eliminating simple mistakes. Pads incorporating the 3M Quick Connect system are easily centered and locked into place for compatibility with an array of standard rotary polishers.

3M Perfect-It Paint Finishing System Compounding Pads

Available in several material options to offer excellent control and access to tight spaces.

3M Perfect-It Paint Finishing System Swirl Elimination Pads

Designed to remove compounding swirls for a glossy finish; waffle face design improves polish application.

3M Perfect-It Paint Finishing System Polish Pads

Easily buffs away fine scratches created through compounding steps; waffle face design improves contact.

3M Brand Pads

Engineered for lower spatter and less sling – reducing cleanup time and overall work.

464LA SERIES

Open-channel abrasive design allows for easy residue cleanup.

466LA SERIES

Featuring a tri-cut pattern; engineered for a consistent cut and finish.

468LA SERIES

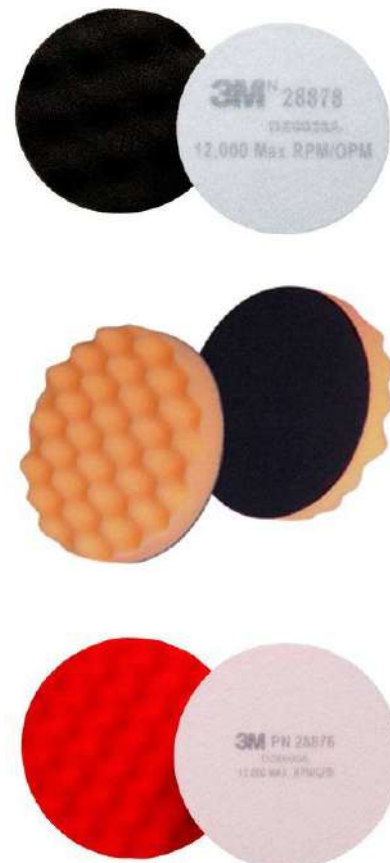

Micro-structured silicone carbide removes imperfections without gouging or marring.

3M Finesse-it Buffing Pads

Integral to any paint repair system, 3M Finesse-it Buffing Pads were engineered for specific stages of OEM defect repair and paint finishing applications. Designed for use with 3M Finesse-it Polish, these moderately aggressive foam pads feature a convoluted surface to maximize contact while refining surfaces to a satin, semi-gloss or high-gloss finish. 3M Hookit attachment system secures pad and ensures quick changeout. Max. Speed 1200 mps.

3M Paint Defect Removal Hand System Kit

Quickly and easily remove dirt nibs and paint defects with the 3M Paint Defect Removal Hand System Kit. Designed to save time and money, the kit supports cleaner repairs and minimizes dust and compound usage, as well as the repair area size itself. Kit includes Grades 1000, 1500, 2000, 2500 and 3000.

Part #	Description	Price
33888	3M Paint Defect Removal Hand System Kit	Call for Pricing

Abrasive Kit includes:

Grade 1000:

- 18 circles
- 18 rectangles
- 3 cards

Grade 1500:

- 18 circles
- 18 rectangles
- 3 cards

Grade 2000:

- 18 circles
- 18 rectangles
- 3 cards

Grade 2500:

- 18 circles
- 18 rectangles
- 3 cards

Grade 3000:

- 18 circles
- 18 rectangles
- 3 cards

Backing pads included:

- (1) unit 3M Paint Defect Removal Hand Sanding Cylinder PN 33909
- (1) unit 3M Paint Defect Removal Hand Sanding Block PN 33910
- (1) unit 3M Paint Defect Removal Hand Sanding Foam Pad PN 33911
- (1) unit 3M Paint Defect Removal Hand Sanding Rubber Pad PN 33912

We carry a full line of aerospace structural adhesives and avionics supplies.

3M Trizact Finesse-it Buffers

Designed for paint shop buffing and polishing applications, 3M Trizact Finesse-it Buffers work seamlessly as a component of the 3M Trizact Paint Defect Repair System. Buffers are engineered for long-lasting durability and optimal comfort.

Support green initiatives with Hisco

Lessen your waste stream with process improvements designed to reduce materials and fuel usage for higher capacity and overall savings.

Contec SATWIPES Hand Scrubber Towel

A powerful cleaner and towel combination, the Contec SATWIPES Hand Scrubber Towel is solvent-free yet effectively dissolves dirt, grime, grease, oil, paints and more. Virtually VOC-free, this environmentally-friendly option features dual textures with a green scrubber on one side for quick cleanups. Constructed of polypropylene, each 9" x 12" towel retains moisture for hours of reuse.

Contec Quilted™ I Wipes Cloth Sheet 011K

With the highest absorptive capacity of any sealed-edge wipe on the market, Contec Quilted I Wipes are constructed of two polyester layers knitted together and laminated to create a stronger wipe with more than twice the absorbency of single-layer wipes. Laser-cut and heat-sealed edges prevent the release of particles and fibers.

Laundered and packed in an ISO Class 4 cleanroom; recommended for use in ISO Class 3-5 environments. Abrasion and chemical-resistant

Mask-Off® Protective Paper and Film Tapes

Since 1950, Mask-Off has been an industry leader in the design and manufacture of pressure-sensitive, protective paper and film tapes. Highly engineered to meet the demands of specific application requirements, Protex® and Sharpline® products from Mask-Off are designed to perform well on a range of substrates. Mask-Off protective solutions are primarily natural/acrylic latex-based and coated on paper or film in a variety of thicknesses and levels of adhesion.
