Suggested industry uses for products in this catalog are just a starting point for selecting appropriate PPE; safety managers need to determine appropriate PPE based on their unique work environments.

Respiratory

Get more face time. Comfort options that work for you.

A comfortable disposable respirator can help to make your workers want to wear one and promote compliance as required at all times during exposure.

Ordering Information

NOTE: Customers in the following industries may be interested in the products listed: construction, utilities, transportation (includes heavy manufacturing and machinery), government, healthcare (when fluid resistance is not needed), chemical and pharmaceutical.

		SKU	Part Number	Item Description	Quantity/Case
Classics		7100132742	8210	3M™ Particulate Respirator 8210, N95 Two-strap design with welded dual-point attachment helps provide a secure seal	160/Case
		7000002056	8511	3M™ Particulate Respirator 8511, N95 3M™ Cool Flow™ Exhalation Valve helps reduce heat and humidity build-up inside the respirator	80/Case
		7000002462	8210V	3M™ Particulate Respirator 8210V, N95 3M™ Cool Flow™ Exhalation Valve helps reduce heat and humidity build-up inside the respirator	80/Case
Alternative Design		7100110432	9211+	3M™ Aura™ Particulate Respirator 9211+/37193(AAD), N95 The Aura™ Series is designed to control airflow to help reduce eyewear fogging	120/Case
		7000002390	9105	3M™ VFLex™ Particulate Respirator 9105, N95 Economical flat fold design.V-shaped pleats help make breathing easier, flex with mouth movement for easier talking.	400/Case
Enhanced Functionality		7000002112	8515	3M™ Particulate Welding Respirator 8515/07189(AAD), N95 Economical option for welders	80/Case
		7000002055	8293	3M™ Particulate Respirator 8293, P100 NIOSH's highest rated filtration efficiency in a filtering facepiece respirator	20/Case
		7000002061	8576	3M™ Particulate Respirator 8576, P95, with Nuisance Level* Acid Gas Relief Carbon layer reduces exposure to nuisance levels of acid gases	80/Case
		7000002062	8577	3M™ Particulate Respirator 8577, P95 with Nuisance Level* Organic Vapor Relief Carbon layer reduces exposure to nuisance levels of organic vapors	80/Case

* Nuisance level refers to concentrations not exceeding OSHA PEL or other applicable government exposure limits, whichever is lower.

Safety and comfort built for the extreme.

Pick your protection.

3M™ Half Facepiece Reusable Respirator 6000 Series

Soft, lightweight facepiece offering an effective combination of comfort and convenience.

3M™ Rugged Comfort Half Facepiece Reusable Respirator 6500QL Series

Overmolded, low-profile design offers simplified cleaning, resilience and compatibility with certain welding and grinding shields.

3M™ Half Facepiece Reusable Respirator 7500 Series

Comfort and durability for all-day respiratory protection.

3M™ Full Facepiece Reusable Respirator 6000 Series

This lightweight, well-balanced facepiece provides enhanced comfort and durability and has a large lens for excellent visibility.

3M™ Ultimate FX Full Facepiece Reusable Respirator FF-400 Series

This full facepiece design was developed for comfort, durability and visibility with unique features that make it the optimal choice for a variety of industrial applications.

3M™ Full Facepiece Reusable Respirator 7800S Series

This durable full facepiece respirator has an optional clip-on welding faceshield kit for use in welding applications.

S-Series Hoods and Headcovers		7000127428	S-133L-5 3M™ Versaflo™ Headcover with Integrated Head Suspension, S-133L-5, White, Medium/Large	5 EA/Case
	The 3M™ Versaflo™ S-133L Headcover is a loose fitting facepiece approved for use with certain 3M™ Powered Air Purifying and Supplied Air Respirator Systems. It features the innovative 3M™ Quick Release Swivel (QRS) connection with compatible 3M breathing tubes.			
		7000052786	S-403L-20 3M™ Versaflo™ Economy Hood, S-403L-20, Medium/Large	20 EA/Case
	The 3M™ Versaflo™ S-403L Hood is approved for use with certain 3M™ Powered Air Purifying and Supplied Air Respirator Systems. It features the innovative 3M™ Quick Release Swivel (QRS) connection with compatible 3M breathing tubes.			
M-Series Headtops		7000052768	S-757 3M™ Versaflo™ Painter's Hood Assembly with Inner Shroud & Premium Head Suspension S-757	1 EA/Case
	Consists of a S-950 Premium Head Suspension and a S-707 Hood. It is approved for use with certain 3M™ Powered Air Purifying and Supplied Air Respirator Systems. Fabric specifically intended to help capture paint overspray. Fabric has an internal film barrier to help prevent paint contact with skin or clothes.			
		7000002350	S-857 3M™ Hood Assembly with Sealed Seams Inner Shroud and Premium Head Suspension S-857	1 EA/Case
	Consists of a S-950 Premium Head Suspension and a S-807 Hood. It is approved for use with certain 3M™ Powered Air Purifying and Supplied Air Respirator Systems. Sealed seams to help protect when certain liquid hazards may be present. Multi-layer barrier film used and double shroud design.			
		7100086969	M-207 3M™ Versaflo™ Respiratory Faceshield Assembly M-207, with Flame Resistant Faceseal	1 EA/Case
	The M-207 is a lightweight, comfortable PAPR headtop that combines a respirator and faceshield, with the option of adding earmuffs for hearing protection. This headtop is a popular in light industry where respirators and face protection are typically used. Combine the M-207 with 3M Versaflo PAPR or Supplied Air components to create a complete respiratory assembly.			
		7000052874	M-307 3M™ Versaflo™ Respiratory Hard Hat Assembly M-307, with Premium Visor and Faceseal	1 EA/Case
	Used with an approved air source, M-300 Series hardhats provide respiratory (OSHA APF=25) and limited head (ANSI Z89.1-2003 Type 1 Class G) and eye (ANSI Z87.1-2010) protection. The M-307 assembly includes a premium visor and premium faceseal.			
		7100009447	M-405 3M™ Versaflo™ Respiratory Helmet Assembly M-405, with Standard Visor and Shroud	1 EA/Case
	Used with an approved air source, M-400 Series helmets provide respiratory (OSHA APF=1000) and limited head (ANSI Z89.1-2003 Type 1 Class G) and eye (ANSI Z87.1-2010) protection. The M-405 assembly includes a standard visor and standard shroud.			
	7000002395	M-407 3M™ Versaflo™ Respiratory Helmet Assembly M-407, with Premium Visor and Flame Resistant Shroud	1 EA/Case	
For respiratory, eye, face and head protection with additional neck and shoulder coverage. Features a flame resistant shroud for applications with hot particles. The M-407 Assembly includes a M-927 Premium Visor, M-444 Inner Collar, and M-447 Flame Resistant Outer Shroud. The M-927 visor is made of coated polycarbonate. The M-447 shroud is made of Nomex® flame resistant fibers.				
	7100168651	M-407SG 3M™ Versaflo™ Respiratory M-Series Helmet Assembly with Flame Resistant Shroud and Speedglas™ Welding Shield, M-407SG, No ADF	1 EA/Case	
The Versaflo™ M-407SG Helmet Assembly includes a flame resistant shroud and Speedglas™ Welding Shield, and offers a 10% weight reduction and larger viewing area than the L-905SG.

Scotchgard Anti-Fog
is available on SF600, SF400, Solus, GG500, GG2890, SFOTG3700

* Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

Weld with confidence.

When it comes to your team's safety, you want only the highest quality welding products. But you also want your workers to be comfortable on the job. That's why we have designed our 3M™ Speedglas™ Welding Helmets and 3M™ Adflo™ Powered Air Purifying Respirators to help protect eyes, lungs, hearing, head and more from everyday hazards while providing lighter weight and more comfort.

9002NC

SKU: 7010341356

Robust and slim

The 3M™ Speedglas™ Welding Helmet 9002NC is a welding helmet designed for rugged, dependable protection. The 9002NC Welding helmet can be used for welding with Advanced auto-darkening optics which adjust to your working conditions for a lighter, brighter and more detailed view of your welds. And a lighter weight, slim profile means less constriction in tight spaces. The new 3M™ Speedglas™ Welding Helmet 9002NC is your new window to the world.

G5-01

SKU: 7100214392

Comfort and protection you can build on

The 3M™ Speedglas™ G5-01 Heavy-Duty Welding Helmet offers integrated respiratory protection and is quickly adjustable for both welding and grinding. The G5-01 also offers 3M's first-ever Variable Color Technology, allowing welders to select between three different dark state colors to get a better view of their weld puddle. This helmet also includes new and improved adjustable airflow, optional 1000 APF and task light accessories, Bluetooth® connectivity and more!

9100 XXi

SKU: 7010302093

See your work in a brand new light

With improvements based on input from master welders around the world, the 3M™ Speedglas™ Welding Filter 9100XXi sets a new standard for visibility, convenience and ease of use. The improved optics in this helmet deliver more natural color and contrast which may allow better control of the weld puddle, greater precision, and simplified workflow.

			7100195960	MT15H7P3EWS6	3M™ PELTOR™ WS™ ProTac XPI Headset, Hard Hat Attached	1, 2, 3
Connect to your Bluetooth® device for clear, hands-free conversations in noisy environments.						

U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations for guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.

See important safety warnings at end of this catalog.

Hearing protection for nearly every environment.

3M has multiple options to help meet your needs. To the right are the most common earplugs, and some key benefits:

Disposable	Disposable Foam Earplugs ► High NRR* for situations with high noise exposures ► Usually the lowest cost option ► Conforms comfortably to the unique shape of each ear
Reusable	Reusable Earplugs ► Designed for multiple uses ► Durable and washable with mild soap and water ► One size fits most
Push to Fit	Push-to-Fit Earplugs ► Quicker to insert than disposable foam earplugs ► No-roll design helps keep the tips clean when the wearer's hands are dirty ► Moderate to high NRR*
Metal Detectable	Metal Detectable ► Helps prevent food contamination ► 3M offers a metal detectable push-to-fit earplug ► Metal detectable cord available

PELTOR Earmuffs

SKU	Part Number	Item Description	Qty/Case	NRR*	
	7000104070	X1	3M™ PELTOR™ Earmuffs X1, Over-the-Head, Green	10 EA/Case	22 dB
The X1A is a lightweight, low-profile earmuff designed for protection against low-level industrial noise and other loud sounds. It features an electrically insulated wire headband, often referred to as “dielectric”.					
	7000104073	X4	3M™ PELTOR™ Earmuffs X4, Over-the-Head, Light Green	10 EA/Case	27 dB
Combines high attenuation with a sleek, low-profile and lightweight design. The innovative foam earcup inserts and spacers help boost attenuation while adding little bulk or weight helping this product have a great NRR* to thinness of cup ratio, great for those who have to work in tight spaces.					
	7000104074	X5	3M™ PELTOR™ Earmuffs X5, Over-the-Head, Black	10 EA/Case	31 dB
No earmuffs in the market today offer a higher Noise Reduction Rating (NRR*) than X5. The high attenuation provided by these earmuffs is a result of the combination of specially-formulated foam in the earcups and cushions and the innovative spacer and cup design.					

U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations for guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.

		SKU	Part Number	Item Description	Qty/Case	NRR*
Disposable		7000002299	310-1001	3M™ E-A-R™ Classic™ Uncorded Earplugs 310-1001/ 310-1103 (small), in Pillow Pack	2,000 EA/Case	29 dB
		Classic earplugs start out firm to allow for easy insertion, then soften from body heat to conform to the unique shape of each ear. This low-pressure foam formulation doesn't absorb moisture for a comfortable fit even in high heat and humidity. The PVC Material will not ignite when exposed to an arc flash.				
		7000002303	312-1250	3M™ E-A-Rsoft™ Yellow Neons™ Earplugs 312-1250, Uncorded, Poly Bag	2,000 EA/Case	33 dB
		These earplugs are designed to seal the ear canal with soft, slow-recovery foam for excellent noise reduction and comfort.				
		7100099847	1100	3M™ Uncorded Foam Earplugs 1100	1,000 EA/Case	29 dB
Reusable		These economical, tapered earplugs are made with hypoallergenic foam that is designed to conform to the unique shape of each ear. 3M 1100 and 1110 earplugs start out firm, to make them easier to insert, then soften in the ear for a comfortable fit.				
		7000029951	312-1261	3M™ E-A-Rsoft™ FX™ Earplugs 312-1261, Uncorded, Poly Bag	2,000 EA/Case	33 dB
		Features a bell shape and super-soft, slow-recovery foam to effectively seal the ear canal and provide reliable hearing protection.				
		7100101640	340-3002	3M™ UltraFit™ Silicone Corded Earplugs, 340-3002, w/Carry Case	320 pr/Case	24 dB
		Designed for small to medium size ears and made from a durable soft silicone material this earplug easily adapts to the ear canal and can be washed and reused many times to help reduce waste. The three-flange design fits a wide range of ear canal sizes and a cloth cord for comfort and convenience. This product features a carry case to help you keep your earplugs clean and protected when not in use.				
Push to Fit		7000002320	340-4004	3M™ E-A-R™ UltraFit™ Corded Earplugs 340-4004, in Poly Bag	400 EA/Case	25 dB
		A proven three-flange design and pliable, pre-molded material make UltraFit earplugs a good option for most ears. These durable earplugs are easy to use again and again, reducing waste. They can be cleaned easily with soap and water.				
		7000127187	p3000	3M™ Tri-Flange™ Corded Earplugs P3000	400 EA/Case	26 dB
		Soft, flexible flanges are designed to adapt to the shape of the ear canal to comfortably help reduce exposure to noise. The plastic stem allows the wearer to insert the earplugs quickly and easily without touching the premolded tips. Choose from a vinyl or cloth cord.				
		7000052745	318-1001	3M™ E-A-R™ Push-Ins™ Earplugs 318-1001, Corded, Poly Bag	400 EA/Case	28 dB
Metal Detectable		3M™ E-A-R™ Push-Ins™ corded foam earplugs provide all-day hearing comfort, convenience and protection. Constructed of 3M™ E-A-Rform™ foam, these earplugs feature a no roll-down design and a blue stem for a quick and easy insertion.				
		7000002319	328-100	3M™ E-A-R™ Flexible Fit Earplug HA 328-1001, ANSI, corded, polybag	400 pair PR/Case	30 dB
		The NEW 3M™ E-A-R™ Flexible Fit Earplug has a soft foam tip and a flexible fitting stem that allows easy insertion into the ear using one or two hands.				
		7000052722	p2001	3M™ No-Touch™ Push-to-Fit Earplugs P2001, Corded	400 EA/Case	29 dB
		Corded push-to-fit foam earplugs create a hygienic, noise-reducing seal in the ear canal with soft foam, a smooth tapered shape and paddle stems. Push-to-fit design makes using hearing protection easy.				
Dispenser		7000127181	P1301	3M™ E-A-R™ Skull Screws™ Earplugs P1301, Corded	480 EA/Case	32 dB
		Push-to fit corded foam earplugs sport the tough look of threaded metal, but feel of soft foam, while offering push-to-fit convenience and noise attenuation with attitude. Effective hearing protection and compliance with a clean, easy twist.				
		70071515749	340-4007	3M™ E-A-R™ UltraFit™ Metal Detectable Corded Earplugs 340-4007, in Poly Bag	400 EA/Case	25 dB
		7000029952	311-4106	3M™ E-A-Rsoft™ Yellow Neons™ Metal Detectable Corded Earplugs 311-4106, in Poly Bag Regular Size	2,000 EA/Case	32 dB
		7000127208	311-1127	3M™ E-A-R™ EXPRESS™ Pod Plugs™ Corded Metal-Detectable Earplugs 311-1127, in Pillow Pack	400 EA/Case	25 dB
Dispenser		All metal detectable earplugs have a stainless steel bead encased in the earplug. Popular in food manufacturing industries, when contamination prevention is critical. Available in a variety of comfortable earplug styles to meet most wearer preferences and environmental needs.				
		7100064963	391-0000	3M™ E-A-R™ One Touch™ Pro Earplug Dispenser, Blue 391-0000	1 EA/Case	

All 3M earplugs are offered corded and most are also offered uncorded.

***NOTE:** 3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in hearing protector fit, fitting skill and motivation of the user. If the NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

Scotchlite

Helping employers protect lives through trusted reflective innovation.

Our Promise:

3M is a pioneer in developing the science behind retroreflection and has been advancing the technology in new and groundbreaking ways for decades. We continue to make advancements in reflective material innovations and help play a longstanding role in on-the-job safety.

Resources and education.

ANSI/ISEA 107-2015 Standard

Federal safety regulations requires that employers perform a low visibility risk assessment for every job function on a worksite exposed to vehicle and/or equipment traffic. Are you compliant with OSHA Hazard Assessment Requirements?

See how the New ANSI/ISEA 107-2015 standard changes may impact your High Visibility garment choices:

Compliance across industries.

High Visibility Clothing Options - made with 3M™ Scotchlite™ Reflective Material.

Oil and Gas

Firefighting

Mining

Construction

NOTE: Customers in the following industries may be interested in the following products: Oil & Gas, Firefighting, Mining, Construction.

How 3M™ Scotchlite™ Reflective Material Works:

Retroreflectivity helps the eye perceive objects in low-light conditions when illuminated by a light source. In more scientific terms, retroreflection occurs when light rays are returned in the direction from which they came. Retroreflective materials appear brightest to an observer located near the original light source.

Visible value. Without comparison.

3M™ Scotchlite™ Reflective Material - 5410 Diamond Mesh Trim is a revolutionary leap in performance and design, delivering compliant visibility with breathability and durability - to help keep your guys comfortable and safe while they work. Created with a patent-pending 3M cut and spread technology, the interstitial weeding process and related waste is eliminated to create a resource-efficient, lower-cost trim without sacrificing visibility.

▲WARNING

These respirators help reduce exposures to certain airborne particulates.

Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in injury, illness or death. For correct use, consult supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Important – Before using these respirators, you must determine the following:

1. The type of contaminant(s) for which the respirator is being selected.
2. The concentration level of contaminant(s).
3. Whether the respirator can be properly fitted on the wearer's face. All respirator instructions, warnings and use and time limitations must also be read and understood by the wearer before use.

Before use of these respirators, a written respiratory protection program must be implemented, meeting all the requirements of OSHA 29 CFR 1910.134, including training and fit testing.

▲WARNING

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in hearing protector fit, fitting skill and motivation of the user. If the NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

▲WARNING

3M™ Hard Hat H-700 Series and 3M™ Hard Hat H-800 Series provides limited protection only. Misuse or failure to following warnings and User Instructions may result in serious personal injury or death. For proper use see supervisor, User Instructions or call 3M Personal Safety Division (PSD) Technical Service at 800-243-4630 (USA) or 800-267-4114 (Canada).

▲WARNING

These products meet the requirements of certain industrial eyewear standards and with some models certain industrial head protection standards. They do not provide complete head, eye and face protection from severe impact and penetration and are not a substitute for good safety practices and engineering controls. **Misuse may result in serious injury or death.** For correct use, see supervisor and User Instructions, or call 3M PSD Technical Service.

▲WARNING

This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. **Misuse may result in permanent eye injury and vision loss.** Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For correct use, see supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Important Notice: This guide is only an outline. It should not be used as the only means for selecting PPE. The wearer must read and understand the user instructions for each product. Specific country legislation must be observed. If in doubt, contact a safety professional. Selection of the most appropriate PPE will depend on the particular situation and should only be made by a competent person knowledgeable of the actual working conditions and the limitations of PPE.

Final determination as to the suitability of these products for a particular situation is the employer's responsibility. This information is subject to revision at any time. Always read and follow all User Instructions in order to ensure correct operation. If you have questions contact 3M Technical Service.

LIMITATION OF LIABILITY: Except as provided above, 3M shall not be liable or responsible for any loss or damage, whether direct, indirect, incidental, special or consequential arising out of the sale, use or misuse of 3M PSD products, or the user's inability to use such products. THESE REMEDIES SET FORTH HEREIN ARE EXCLUSIVE.
