

Aviral™

High Performance Oleophobic and Icephobic Coating

**lasts longer than any
other competing products
in the market**

- ▶ World's most advanced coating technology.
- ▶ Single component, ready to use, no harsh chemicals.
- ▶ Transparent and can be applied to any painted or non painted surface.
- ▶ Thickness less than 1/10 th of human hair.
- ▶ Adheres strongly to substrates for longer lasting protection.
- ▶ Oleophobic, prevents adhesion of water, oil and dirt.
- ▶ Develops smooth soft touch surface.
- ▶ Self cleaning through rolling of water droplets.
- ▶ Resists formation of ice on the surface.
- ▶ Passes more than 500 hours of salt spray test to impart corrosion protection to metals.
- ▶ High abrasion resistance and high thermal stability.
- ▶ Passes most of the aerospace grade coating requirement.
