- Dedicated local stock available for your critical products through our 37 stocking locations

PROCESS

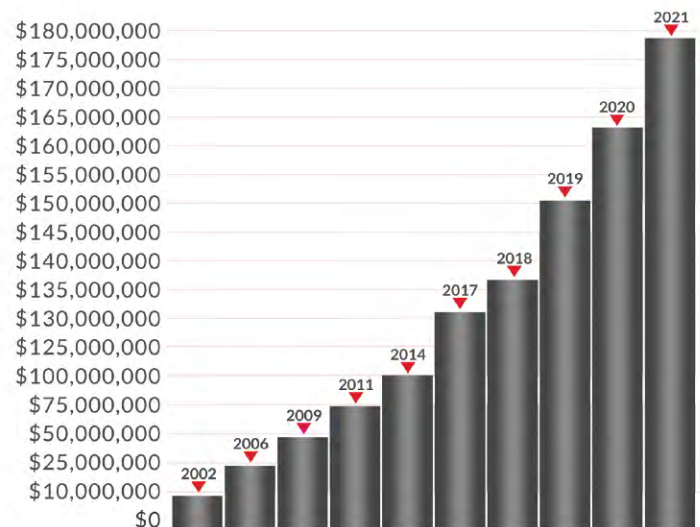

DOCUMENTED COST SAVINGS

*We back up our documented savings claim with nearly **\$180,000,000 in customer savings.***

For each cost savings event, we'll supply you with a cost reduction form for your authorization, to illustrate both direct and indirect benefits such as:

- ✓ Downtime avoidance
- ✓ Manufacturing process improvements
- ✓ Product design improvements
- ✓ Supply chain savings
- ✓ Vendor managed inventory

CUSTOM VMI SOLUTIONS

RFID FOR INVENTORY MANAGEMENT

Powered by **Xemelgo**, Hisco RFID technology for inventory management streamlines your production to ensure real-time asset and materials tracking and factory floor visibility at your fingertips. Track parts, equipment and tools, and view the locations where they were last seen via our intuitive mapping software.

Our sensor-based tracking provides accurate stocks data with complete, real-time visibility and intelligent alerts to eliminate shortages of supply, track asset expiration and calibration schedules, and receive notification immediately if an expired asset is used in production.

WHY HISCO FOR RFID?

MATERIALS TRACKING

Get real-time alerts when stock is running low, alerts for expiring material and more. Ideal for solder paste, adhesives and chemicals.

CHEMICAL MANAGEMENT

Track chemicals, adhesives, sealants and more throughout the facility and receive alerts when they are due to expire.

ASSET TRACKING

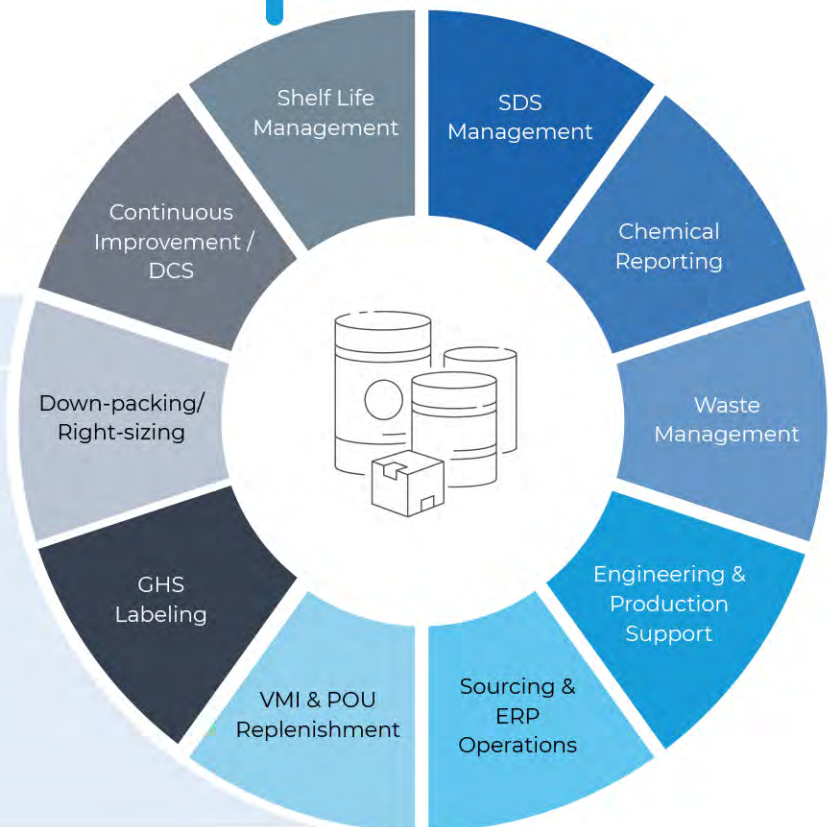

Track expensive tools throughout facility through geo-fencing and receive alerts when tools are due for maintenance and more.

Built-in features of Hisco's RFID integrated solution

- ✓ Wi-Fi connectivity
- ✓ Low bandwidth
- ✓ Expandable up to (4) antennas
- ✓ Room-level and location read capability

CHEMICAL VMI SERVICES

- ✓ Real-time, on-hand inventory levels
- ✓ Automated chemical usage
- ✓ Consumption by department, job and employee
- ✓ Expiration date tracking
- ✓ No expired or obsolete materials
- ✓ Lock out expired materials
- ✓ Minimum inventory alerts
- ✓ Eliminate rush / air shipments
- ✓ Product usage trends
- ✓ Chemical compliance

WHY WORK WITH HISCO?

Value-added services

With benefits including inventory management, RFID technology, custom converting capabilities and downpacking services, Hisco offers a comprehensive business solution.

Supply chain savings

Hisco is an authorized distributor of key industry suppliers including Henkel, 3M, AkzoNobel, Wacker, Lord and hundreds more.

Employee owned

Hisco has proudly operated as a 100% employee-owned company since 1970. As an ESOP, we all have a vested interest in our collective successes, because no one cares like an owner.

Quality compliance

With North America's largest network of AS9120 locations, our associates are trained to ensure constant quality compliance

Process improvement

Support green initiatives and lessen your waste stream with process improvements designed for higher capacity and overall savings.

Large footprint

With 38 stocking locations, Hisco maintains North America's largest network of AS9120 locations and the largest footprint of any North American distributor.
